- Awarded best overall resident in the performance of dermatologic surgery

Internship: Internal Medicine, *St Lukes-Roosevelt Hospital Center*, New York, NY
June 2006-June 2007

Clinical Research Training Program Fellowship, *National Institutes of Health*, Bethesda, MD; June 2005-June 2006

M.D., *University of Virginia School of Medicine*, Charlottesville, Virginia
August 2001-May 2006

- Graduate with special recognition in research

B.A., *University of Virginia*, Charlottesville, Virginia

Major: Economics; Concentration: Spanish; August 1997-May 2001

- Phi Beta Kappa; graduate with 'distinction'

RECEIVED JAN 21 2014 AC

RESEARCH

Department of Dermatology and Cutaneous Surgery, *University of Miami Miller School of Medicine*, Miami, FL. August 2007-July 2010. Mentor: Keyvan Nouri, M.D. Research protocols designed include: examining the efficacy of blue/red light therapy in combination with benzoyl peroxide/clindamycin gel in the treatment of mild to moderate acne vulgaris, and evaluating the safety and efficacy of imiquimod cream in combination with laser therapy in tattoo removal.

Clinical Research Training Program, *National Institutes of Health*, Dermatology Branch, National Cancer Institute, Bethesda, MD. June 2005-June 2006. Mentor: Jonathan Vogel, M.D. Branch chief: Mark Udey, M.D./PhD. Engaged in mentored clinical research involving the characterization of keratinocyte stem cells as well as formal coursework with leading scientific investigators on the principals of successful clinical research.

Department of Infectious Diseases and Tropical Medicine, *Federal University of Ceara*, Fortaleza, Brazil, May 2005-June 2005. Mentor: Aldo Lima, M.D., PhD. Designed and implemented clinical research protocols in the poor 'favela' neighborhoods of Parque Universitario. Our research goals involved analysis of microorganism content in local drinking water and its effect on childhood failure to thrive.

Department of General Surgery, *University of Virginia School of Medicine*, June 2002-April 2003. Mentors: Reid Adams, M.D., Forrest Calland, M.D. Helped develop training module for laparoscopic techniques; designed survey to assess attitudes on safety in the operating room. Research presented to surgery departments at the University of Virginia and Eastern Virginia Medical Schools.
